

MILLNER SCHOOL 2024

TERM 2 WEEK 2

admin.millnerps@education.nt.gov.au

08 792 30333

Term 2 is off to a roaring start with preparations underway for our Mother's Day Raffle. Have you bought a ticket yet? Our many supporting businesses have kindly donated prizes to our raffle, so there are heaps of treats to be won. We are very pleased that we can commit our fundraised amount to the Jevdenijevic family whose young son Kealii is battling a serious medical condition.

Professional Photos on Mother's Day

Our very own professional resident photographer Mr Ben Andrews will be taking family portraits on 10 May at 9 am. \$5 for a digital copy and \$10 for a printed copy.

Our School goals for 2024:

These are our 2 goals for the year!

By the end of 2024, all students attending school more than 60% will show growth of 1 stage in their Meaningful Maths assessments.

We are placing our students according to their mathematical stages of working in Addition and Subtraction- this will help us track their growth of 1 stage during the year.

By the beginning of Term 4 in 2024, there will be a growth of 15% in student survey responses to the question 'There is an adult at my school who cares about me and knows me well'

Our students have been actively identifying their trusted adults in the school and letting them know, so that we can ensure every child at Millner School understands the concept of trust and safety.

These goals have been created using the responses from surveys completed this year, our own student achievement data in 2023 as well as staff feedback. We feel confident that by addressing and achieving these 2 goals, we will positively impact our student outcomes.

As always, please pop into the front office if you need to chat about your child's learning, provide feedback or just say hello.

Noella Goveas,
Principal

UPCOMING EVENTS

- Cracker Cup
Tuesday 30 April

- Nightcliff Middle School
Information Night
Wednesday 1st May 5-6pm

Building a national picture of child health

From May 2024, our school, along with thousands of others across the country, will participate in the Australian Early Development Census (AEDC).

The AEDC is a teacher-completed census (similar to a questionnaire) which provides a comprehensive picture of how children have developed by the time they start their first year of full-time school.

The AEDC is an Australian Government Initiative and is completed nationally every three years.

Children don't miss any class time while the AEDC is completed, and parents/carers don't need to supply schools with any new information.

The data collected through the AEDC is used by schools, communities and governments to better understand children and families' needs, and identify the services, resources and support they need.

AEDC data is reported at a school, community, state/territory and national level. AEDC results for individual children are not reported and the AEDC is not used as an individual diagnostic tool.

Some teachers have found that completing the AEDC made them more aware of the needs of individual children and their class, and that the data was useful for planning for transitions to Year 1 and developing programs.

Participation in the AEDC is voluntary, however the AEDC relies on all schools with children in their first year of full-time school participating in the collection. Parents/carers don't need to take any action unless they choose not to include their children in the census.

To find out more about the AEDC and how it is being used to help children and families visit: www.aedc.gov.au.

If you have any questions, you can contact Noella Goveas on 79230333

IDEAS IN NUTRITION

Healthy Eating and Mood: Fuelling Your Child's Happiness

Did you know that what your child eats can significantly impact their mood and well-being? A healthy diet is more than just nourishing the body; it's a recipe for a happy and emotionally balanced child. Here's some ideas for you;

- Balanced Diet:** Include fruits, veggies, whole grains, lean proteins, and dairy for essential mood-boosting nutrients.
- Stay Hydrated:** Water prevents irritability and fatigue.
- Protein for Stability:** Lean meats, fish, eggs, and legumes help regulate mood and provide sustained energy.
- Omega-3 Rich Foods:** Salmon, tuna, flaxseeds, and walnuts with omega-3 fatty acids improve mood and reduce anxiety.
- Avoid Sugary and Processed Foods:** Opt for whole, unprocessed foods to prevent energy swings that affect mood.
- Regular Meals:** stabilise blood sugar levels. Offer children regular meals and snacks.
